

Evoca joins the United Nations Global Compact.

Valbrembo (Italy), October 25 2023 - Evoca, a world-leading manufacturer of professional coffee machines, **announces its membership of the United Nations Global Compact**, the world's largest corporate **sustainability** initiative, uniting over 18,000 companies and 3,800 non-business participants across more than 160 countries.

The UN Global Compact is a voluntary leadership platform that encourages companies to develop, implement, and disclose responsible business practices, aligning their strategies and operations with ten universally accepted principles in the areas of human rights, labor, environment, and anti-corruption.

Giusi Bonini, the Chief Sustainability Officer of the Evoca Group, commented: “The participation to the UN Global Compact initiative is a further step in the evolution of Evoca’s sustainability strategy and aligns with the Company’s dedication to support the United Nations Sustainable Development Goals (UN SDGs). As a group, Evoca is committed to promoting a healthy, sustainable, and inclusive working environment and playing a positive role and contributing to a bright future”.

Evoca Group is the world leader in the production of professional coffee machines and boasts the most complete range of products for out-of-home consumption. The Group’s offer covers three segments: coffee machines for the Horeca sector (Hotel, Restaurant, Cafeteria), small automatic coffee machines for the OCS (Office Coffee Service), automatic dispensers (Vending) of coffee, snacks and cold drinks. The main Group brands covering these segments are: Gaggia Milano for Horeca, Saeco for OCS and Necta for Vending. Additionally, the Group promotes its products under the brands Wittenborg, Cafection, Visacrem, Futurmat, Ducale, Macas, and Newis which operate in specific geographical areas through dedicated product ranges always providing a perfect consumer experience. Common features of all the Group’s brands are the focus on coffee, advanced technologies and digitalization supported by significant investments in research and development. All this for the benefit of a rich value proposition made available by an articulated distribution platform and an important after-sales service network. The Group has 6 R&D centers and has registered over 700 patents.
