Evoca Group is back for Venditalia 2024, the most important international event in automatic distribution.

Evoca Group is getting ready to welcome visitors to Venditalia 2024, which will be held from 15 to 18 May at Fieramilano Rho. It's an unmissable event for the automatic distribution and out-of-home consumption sectors.

This year Evoca will invite you to join us on a journey into the world of vending, which is overcoming its traditional boundaries in an exciting new adventure. The new products introduced by the Group's main brands will come to be seen as significant milestones along a path in which innovation and tradition are integrated; where design is placed at the service of the user experience, and where advanced, environmentally friendly solutions are achieved, thanks to a sustainable industrial approach.

You don't need suitcases or a passport to leave with us, just a ticket.

Register and download your pass here: <https://venditalia.com/en/>

We'll be waiting for you at Venditalia, on our stand: Pavilion 8, Stand E20 F19

Evoca Group is the world leader in the production of professional coffee machines and boasts the most complete range of products for consumption outside the home. The Group's offer covers the following segments: Out-of-Home Solutions (coffee machines for the Hotels, Restaurants, Cafeterias, Offices) and Vending Solutions (vending machines for coffee, snacks and cold drinks). The Group's main brands covering these segments are: Gaggia Milano, Saeco and Necta. In addition, the Group promotes its products with the brands Wittenborg, Visacrem, Futurmat, Cafection and Newis, which operate in specific geographical areas through dedicated product lines, always offering a perfect consumer experience. The common characteristics of all the Group's brands are the focus on coffee, advanced technologies and digitalization supported by significant investments in research and development. All this to the benefit of a rich value proposition made available through an articulated distribution platform and an important after-sales service network. The Group has 6 research and development centres and has registered over 700 patents.
